Johar Town, Lahore, Pakistan

PROFESSIONAL SUMMARY

Passionate and results-driven React Native Developer with hands-on experience in building cross-platform mobile applications for both Android and iOS. Skilled in JavaScript, React Native, Redux, and RESTful API integration. Strong understanding of responsive UI/UX design, authentication flows, and performance optimization. Capable of delivering scalable mobile solutions by combining frontend expertise with backend integration. Dedicated to writing clean, maintainable code and building apps that provide seamless user experiences.

CORE COMPETENCIES

Mobile App Development: React Native, JavaScript (ES6+), TypeScript, Expo

Frontend: React.js, Responsive UI/UX, Tailwind CSS

State Management: Redux, Context API, Hooks

APIs & Backend: RESTful API integration, Authentication (JWT), Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Version Control: Git, GitHub, VS Code, Postman, Android Studio

Other Skills: Problem Solving, Team Collaboration, Client Communication, Time Management

WORK EXPERIENCE

- React Native Developer (Cross-Platform Mobile)
  Dictalabs, Lahore — Jul 2024 – Aug 2025

• Developed cross-platform mobile applications using React Native and JavaScript/TypeScript.
• Built reusable, responsive UI components for Android and iOS platforms.
• Integrated RESTful APIs and implemented secure authentication flows.
• Applied Redux and Context API for state management.
• Optimized performance, enhanced UI responsiveness, and used clean architecture

patterns.
• Collaborated with backend and UI/UX teams to deliver production-ready solutions.

- React Native Developer (Intern)
  UET, Lahore — Jul 2023 – Nov 2023

• Gained hands-on experience in React Native mobile app development.
• Assisted in developing new app features, integrating APIs, and debugging.
• Implemented responsive layouts and basic authentication features.
• Worked closely with senior developers and followed best coding practices.

PROJECTS (React Native)

- AutoCare App
  Vehicle Management & Service Tracking System

  Built a mobile app using React Native for vehicle profile management, service scheduling, and maintenance tracking.
  Integrated real-time updates and push notifications.
  Implemented secure login and modular UI components.
- VSCRAWL App
  Digital Documentation & E-Signature System

  Developed using React Native and REST APIs for document upload, preview, and signing.
  Integrated authentication and state management for secure workflows.
  Focused on responsive design and offline support.
- Organ Speed Metro (OSM)
  Route Management Application

  Built with React Native, integrating Google Maps API for route tracking.
  Implemented dynamic route data fetching and state management.
  Focused on clean UI and cross-platform support.
- AI-Powered LMS App
  Learning Management System (Final Year Project)

  Built the mobile frontend in React Native, integrated with a Node.js backend and chatbot AI.
  Implemented course browsing, chatbot Q&A, and student progress features.
  Focused on modular architecture and secure authentication.

CERTIFICATIONS

MERN Stack Development — UET, Lahore (2023)

EDUCATION

Bachelor of Science in Computer Science (BSCS)
University of Management and Technology (UMT), Lahore

Intermediate (FSc)
Punjab Group of Colleges — 2019–2021
